DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/22/2004 has been entered.

Election/Restrictions

2. This application still contains claims 4, 7-9, 13 and 33-40 drawn to nonelected inventions. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-3, 5, 6 and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Pletka et al., for the same reasons cited in the previous action.

Response to Arguments

5. Applicant's arguments filed 10/22/2004 have been fully considered but they are not persuasive.
6. Applicant's arguments fail to comply with 37 CFR 1.111(b) because they ultimately amount to a general allegation that the claims define a patentable invention without **specifically** pointing out how the structures of the claims patentably distinguishes them from the references. In the last office action, the Examiner went as far as to point out specific embodiments of the present claims represented in the prior art. However, applicant's amendment and argument do not even address these specified matching structural elements.
7. Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited. Further, they do not show how the amendments avoid such references or objections.
8. All claims are drawn to essentially the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the same grounds and art of record in the next Office action if the amendments had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the

filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
